

# Talk Detective

You've been selected as a talk detective for this lesson. Walk around the classroom and try and listen in on discussions - but try not to make your job obvious, everyone changes how they talk when they know they're being watched... Try your best, and see if you can find names for all the questions below.

Who gave evidence to support their view?

Who respectfully disagreed?

Who included someone else in the discussion?

Who asked clarifying questions?
